

CPAC Autex Manual Fixer

Autex® Manual X-ray fixer and Replenisher is one-part, concentrated, all-liquid hardening fixer designed to provide superior fixing and hardening for all medical and industrial X-ray films. It is especially formulated for all types and brands of x-ray films. Its low-odor formulation makes it great for smaller or older darkroom environments. This low-odor formula does not use a scent to mask the odor. Our unique formula actually reduces the fumes that cause fixer odor. Autex® Manual X-ray Fixer and Replenisher is available in convenient 6 x 5L (30 liter) mixes

Features:

- Suitable for types and brands of medical and industrial X-ray film
- Clean working
- Non-corrosive
